## **A Series Units**

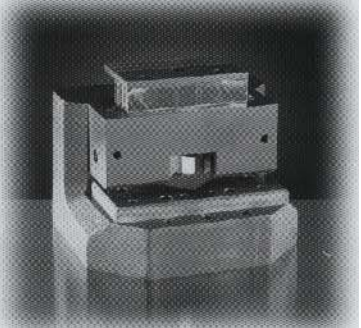

offer you a wide range of standard holder widths, throat depths, and round and shaped Punches and Dies. Strong stripping springs and rugged holders insure burr-free holes with minimal maintenance. Quick, accurate template locations and flexibility with various mounting methods (without special equipment) are also features of the "A" Series.

## **AH Units punch up to 1/2" thick materials.**

These units feature multiple heavy duty springs that "strip" the Punches from mild steel as thick as 1/2". They incorporate hardened steel bushings that provide long life and accurate rigid alignment of punches.

**Edge Notching Units**

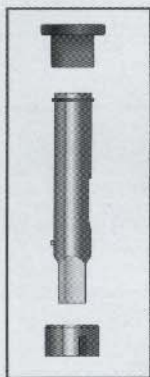

**Vee Notching Units**

## **Notching Units for materials up to 1/4" th.**

- 5" x 5" max. Corner Notches
- 3" x 8" max. Edge Notches
- 1", 1 1/2", and 3" Vees at 90°

A SERIES

UniPunch "A" Series Units feature economical two-piece Punches. Punch heads and bodies are separate, which lets you quickly change hole size and shape, simply by changing the inexpensive Punch bodies. Slip-on retainer pins hold Punches in place without any special tools. Use and reuse the Punch Heads indefinitely. Low-cost Die Buttons complete the Punch system and offer close tolerances for accuracy and interchangeability.
